

GAYAN KAVISHKA SENARATHNA

Computer Science Undergraduate | Web & Software Developer

Embilipitiya, Sri Lanka | +94 76 491 0671 | sgayankavishka@gmail.com | github.com/SGKavishka

PROFESSIONAL SUMMARY

Motivated Computer Science undergraduate with hands-on experience in full-stack web and game development. Skilled in JavaScript, TypeScript, PHP, React, C#, MySQL and MongoDB, with a focus on developing responsive, practical software and clear user experiences.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, PHP, C#, Java (Basic), C (Basic)

Web & Frameworks: HTML, CSS, React, Next.js / Vnext, Responsive Web Design

Databases: MySQL, MongoDB

Tools & Platforms: GitHub, Unity, Cloudflare, Figma, Power BI

Concepts: Object-Oriented Programming (OOP), CRUD Operations, Frontend Development, Backend Development, Database Management

PROJECTS

GIFT HUB | Full-Stack E-Commerce Web Application

github.com/SGKavishka/Gift-Hub

- Built a responsive TypeScript and React gift-store experience with product search, filters, wishlists, shopping cart and checkout flows.
- Implemented a custom gift-box builder, budget controls, order tracking and WhatsApp ordering; prepared the app for deployment using Cloudflare technologies.

VELOCITY LEGENDS (CAR GAME) | Unity C# Racing Game

github.com/SGKavishka/Car-Game

- Developed wheel-collider-based vehicle physics with steering, braking, drifting, speed limiting and downforce, plus a nitro boost system with configurable capacity, consumption and automatic refilling.
- Implemented race states, lap timing, HUD displays, pause functionality and race completion flows.
- Developed a JSON-based save system for player progress, car selection, unlocked vehicles and vehicle upgrades.

TECHGEAR | Technology Products Website

github.com/SGKavishka/TechGear

- Developed a responsive website for browsing and managing technology products with database-driven listings and complete CRUD functionality.
- Used PHP and MySQL for backend operations and reliable data management.

TEACHME | Online Learning Platform

github.com/SGKavishka/TeachMe

- Built an interactive online learning platform with user engagement features, using HTML, CSS and JavaScript on the frontend.
- Integrated a PHP and MySQL backend for effective data storage and management.

LIBRARY MANAGEMENT SYSTEM | Web Application

- Developed a web-based system to manage books, members, borrowing and return processes, with CRUD functionality for book and member records.
- Designed borrowing and return workflows to keep book availability accurate, backed by a MySQL database for secure storage and retrieval.

PROXJAVASWINGAPP | Java Desktop Application

- Developed a Java Swing desktop application applying OOP principles, with CRUD operations and clean, user-friendly graphical interfaces.

TOURISM WEB APPLICATION | Team Project

- Collaborated with a team to develop a responsive tourism promotion website; contributed to interface design and development and improved navigation and overall user experience.

EDUCATION

BSc (Hons) Computer Science (Undergraduate) | SLIIT City University

In Progress

G.C.E. Advanced Level (A/L) & Ordinary Level (O/L) | MO/Bandaranayaka National College

Completed

Basic Certification in Cambridge English | ESOF Metro Campus

Completed

SOFT SKILLS

Problem Solving | Teamwork | Communication | Time Management | Adaptability | Quick Learning

LANGUAGES

Sinhala: Native **English:** Basic
